## The smarter E India 2026 - Your Gateway to Capitalize on Renewable Energy Boom in Western India

**Target Western India:** Western India has transformed into the nation's undisputed epicentre of renewable energy growth. Propelled by investor-friendly policies and natural advantages, Western India now commands 46%—over 103 GW—of India's renewable-energy capacity. As India races toward 217 GW of non-fossil energy and cements its position as a global clean-energy powerhouse, Western India offers a rare convergence of scale, return and sustainability: utility-scale solar parks bathed in world-class irradiance, wind corridors delivering steady yields, and a robust pipeline of hybrid, green-hydrogen, and grid-integration projects ready for capital-efficient investment.

### Key Market Highlights

#### Solar Powerhouse

Rajasthan and Gujarat are the top-performing states in utility-scale solar, accounting for 71% of India's installations. Maharashtra is also a top ten contributor. India's solar sector has expanded from 66.78 GW in 2022-23 to 100.33 GW in 2024-25.

#### Energy Storage Leader

Western India is crucial to India's energy storage expansion, projected to reach 60 GW by FY32. This growth is driven by Battery Energy Storage Systems (BESS) and Pumped Storage Projects (PSP), essential for the region's large-scale renewable projects.

#### Green Hydrogen Pioneer

States from western India are at the forefront of India's Green Hydrogen initiatives. Gujarat is developing a major production hub, Rajasthan is focusing on solar/wind-powered hydrogen production, Maharashtra has a Green Hydrogen Policy and Madhya Pradesh already has operational green hydrogen plants.

#### EV Hub Synergy

·EV Hub Synergy: The western zone is a rising EV manufacturing centre, attracting all major automakers and creating strong synergies with renewable energy and charging infrastructure development.

## Three energy exhibitions under one banner

### Intersolar India

India's most pioneering exhibition and conference for the solar industry

Focuses on the areas of photovoltaics, PV production and solar thermal technologies.

### ees India

India's leading electrical energy storage and green hydrogen exhibition and conference

Focuses on batteries, electrical energy storage technologies systems and green hydrogen attracting investors, utilities, installers, manufacturers and project developers from all over the world.

### EV Asia Expo

India's premier exhibition for electric mobility and charging solutions

A must-attend platform for automakers, electric mobility start-ups, suppliers and distributors of electric mobility and transportation solutions.

Join us and discover a universe of rich opportunities by connecting with a unique audience of professionals

## Exhibitor profiles

Manufacturers, suppliers and service providers

Fuel cell manufacturers

Automotive industry and mobility providers

Project developers and EPC contractors

System providers and integrators

Battery cell producers & energy storage system suppliers

Providers of grid infrastructure & solutions for integration of renewable energy

BOS (Balance of System) components

Research and development institutes

Financial service providers and consultancies

Certification institutes

Associations and societies

## Visitor profiles

Installers and integrators

Utility/Grid operators

Manufacturers and suppliers

Project developers and EPC contractors

Energy consultants

Architects and energy planners

Towns/local authorities and public institutions

Government officials and policy makers

Urban planners

Investors and analysts

Large scale distributors

Fleet operators

## Don't miss the opportunity to participate

Space type	Price (in Euro/sqm)	
	Pricing type	Regular
	Validity	01 May 25 - 25 Feb 26
Bare space	Member prices	205
	Non-member prices	240
Shell space	Member prices	225
	Non-member prices	260

### Terms

1. Taxes shall be applicable extra as per prevailing rates over the above prices.
2. The above prices will be valid for 21 days from the date of approval of application. Exhibitor has to make 40% advance payment within 21 days, failing which the booking may be cancelled.
3. Co-exhibitor charges are Euro 180 excluding taxes.

## Stakeholder testimonials

The Smarter E India is a wonderful platform. I've observed a remarkable level of enthusiasm and commitment here, which will undoubtedly lead to meaningful deliberations and a truly wholesome engagement over the three days.

**Shri S. J. Haider, IAS**  
Addl. Chief Secretary, Energy & Petrochemicals,  
Government of Gujarat

This is a standout platform for everyone in solar – from solar developers, solar equipment manufacturers and advanced machinery to grid supporters. The Smarter E India is becoming a new solar alliance coalition, especially with the strong presence of indigenous and 'Make in India' products that stand out from other events. It's been a fantastic show, and I'm sure it will be even bigger next time.

**Shri. Arun Mahesh Babu, IAS**  
Managing Director, Gujarat Power,  
Government of Gujarat

We've experienced great mileage from The Smarter E India. It's a fantastic platform for customer interaction, and we've successfully closed substantial orders here. Beyond business, it's an excellent venue to connect with industry colleagues. The continuous improvement in quality and increasing visitor numbers year after year confirm that we're achieving our objectives. We look forward to maintaining a prominent presence here.

**Cecil Augustine,**  
National Head, Sales & Marketing,  
Adani Solar

This is a great platform to showcase our products and solutions and connect with customers and clients. We met existing clients from across India especially those based out of the west and north as well as getting quality leads and new enquiries, setting the stage for future collaborations. It's been an excellent experience and we look forward to participating again.

**Upasana Boruah,**  
Manager-Business Development & Corporate  
Communication, FIMER S.p.A.

By associating with this platform, we've gained a lot of mileage, helping us become a leading supplier of solar solutions. It allowed us to efficiently connect with all our distributors and new clients under one roof.

**Nikunj Mathur,**  
Deputy General Manager - RSM - B2B Solar,  
Polycab

As per my personal experience, the show helped me gain a lot of insights of the market plus get the good leads to convert them into the business. I've found numerous promising prospects across solar EPC, hybrid inverters, and OEM sectors. It's an excellent hub for connecting within the solar industry.

**Raghav Kumar Sharma,**  
Vice President,  
Eastman Auto & Power Ltd.

Platforms like The Smarter E India are vital for our success. They allow us to effectively showcase our technologies, but most importantly, they enable us to truly grasp the market's pulse and hear directly from customers about their future needs and project requirements. This event also cultivates a strong feedback loop, providing us with candid insights that are crucial for our growth and for serving our customers even better.

**Hiten Parekh,**  
President,  
Grew Energy Private Limited

This platform is quite helpful because we have engaged with many commercial buyers who have synergies with our business. We are happy with the high-quality visitors, leading to many new inquiries from key cell & module buyers adding measurable value to our business and helping our business grow.

**Neeraj Gupta,**  
Sr. Vice President, Commercial & Strategy,  
ReNew Power

## Stakeholder testimonials

This is a highly anticipated event in the solar industry and Gujarat is a crucial market for the entire solar ecosystem. We're very happy to meet our customers here and love the energy of this expo. Participating has been a great experience.

**Vinelle Vaz,**  
DGM - Retail Sales & Corp. Communication  
RenewSys

This is truly one of the solar sector's flagship gatherings. It gave us the perfect setting to reconnect with existing partners, forge valuable new contacts, and secure high-quality leads. The show has already helped us expand our reach and respond more effectively to market needs.

**Tilak Giri,**  
Business Head,  
Bharat Cell

The Smarter E India platform provides the ideal space to showcase all our services to a highly targeted audience. We can confidently say it has helped us immensely.

**Pranav Parikh,**  
Group Head - BD & CRM,  
Electrical Research & Development  
Association (ERDA)

This event provides us with valuable leads and we've gathered many high-quality inquiries. We connected with our key existing customers and engaged in promising discussions with new prospects. This event plays a vital role in helping our business expand.

**Bhavin Patil,**  
Head - Sales & Marketing,  
HellermannTyton India

This is our first time participating at The Smarter E India, and we've found it very helpful. It let us reconnect with existing clients and more importantly, engage with new EPCs and end-users—expanding our network and opportunities in one place.

**Hardik Shah,**  
APAC Solutions Director,  
Sunways

We gained many new leads and met numerous potential clients here. This platform is a powerful driver for driving our business forward.

**Akshay Dehedkar,**  
Director - Technical & Service (India),  
Deye

The Smarter E India delivers value on every front. It lets us highlight our full turnkey capabilities, engineering expertise, hands-on executive oversight and demonstrate our 360-degree execution capacity across multiple segments. More importantly, it brings investors, EPCs, financiers and procurement teams from across India on one floor, giving us direct access to new products, innovations and a stronger supply chain.

**Amit Khandelwal,**  
Whole Time Director,  
KP Group

It is very interesting to see the gamut of the supply chain under one umbrella. It is informative as well enables us to connect with the entire supply chain of renewable products.

**Satyen Kanabar,**  
Head - Sourcing & Contracts,  
Copenhagen Infrastructure Service Co.
