

INTEGRATING THE GLOBAL ENERGY INDUSTRY

09.-11.
MAR
2027

Helipad Exhibition Centre, Gandhinagar, Gujarat

India's Innovation Hub for
the New Energy World

Business Opportunity Guide

India - Emerging Leader in Renewable Energy

Surging Capacity & Ambitious Targets:

India crossed 200 GW of renewable capacity, aiming for 500 GW by 2030 with solar alone accounting for 250–280 GW (30–35 GW added annually).

Booming Market & High Growth:

The solar market, worth about \$10.4 billion in 2023, is projected to reach \$24–25 billion by 2030 (~13% CAGR), supported by forward-looking policies and incentives.

Manufacturing Push & Financial Incentives:

The PLI scheme spurs domestic production of high-efficiency PV modules, complemented by tax holidays and accelerated depreciation, fostering an integrated solar supply chain. Pushing high demand for technology.

Green Hydrogen Gains Momentum:

India aims to produce 5 million metric tonnes of green hydrogen by 2030, attracting more than US\$ 95.9 billion in investments—setting the stage to become a global leader in sustainable fuels.

BESS Expansion

With a 12-fold growth expected by FY32 with 60 GW capacity, India's BESS sector is primed for rapid expansion with funding opportunities projected to reach 3.5 trillion by FY32.

Accelerating EV Revolution:

India's EV market is on track to grow 28.52% CAGR, from US\$ 5.22 billion in 2024 to US\$ 18.319 billion by 2029. Simultaneously, the EV battery sector looks set to rise from US\$ 16.77 billion in 2023 to US\$ 27.70 billion by 2028—ushering in huge opportunities for innovation and investment.

Gujarat - Ease of doing Business Initiatives

Gujarat offers an unparalleled business environment designed to accelerate your success in India's booming renewable energy sector. Leverage these key advantages:

Strategic Import Benefits:

Capitalize on reduced or waived import duties on solar panels, inverters and components, lowering operational costs for international investors.

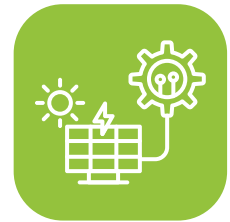

Unmatched State-Level Incentives

Benefit from Gujarat's proactive policies, including subsidies, strategic tax exemptions and streamlined permission processes, designed to maximize your profitability.

Mega-Project Pipeline

Tap into a pipeline of large-scale solar projects, attracting global investors, developers, and equipment suppliers to Gujarat's dynamic market.

Strategic Partnerships

Forge powerful partnerships and joint ventures with established local players, gaining a rapid and secure foothold in the expansive Indian market.

Localized Manufacturing Advantage:

Eliminate import duties and capitalize on India's progressive initiatives, such as the PLI Scheme, by establishing local manufacturing facilities in Gujarat.

Business opportunities for International companies in India

100% FDI
(Foreign Direct Investment allowed in the **renewable sector.**

500 Solar Manufacturers are eager to source **wafer, cells** and **modules**

200 EV Manufacturers need **components, batteries** and **charging infra**

1000+ EV Dealers are keen to import **4-wheelers, 3-wheelers, and 2-wheelers**

Key Facts & Figures

Three energy exhibitions under one roof

Intersolar India – India's most pioneering exhibition and conference for the solar industry

Focuses on the areas of photovoltaics, PV production and solar thermal technologies.

inter solar
connecting solar business | INDIA

ees India – India's leading electrical energy storage & green hydrogen exhibition and conference

Focuses on batteries, electrical energy storage technologies systems and green hydrogen attracting investors, utilities, installers, manufacturers and project developers from all over the world.

ees
